

## Exadel Named Top Data Analytics Company in San Francisco Area by Clutch

*Exadel recognized for engineering advanced, real-time data analytics solutions*

**WALNUT CREEK, CA – April 30, 2018** – Exadel ([www.exadel.com](http://www.exadel.com)), a provider of digital software engineering services, has been recognized by Clutch as a [top big data and analytics provider](#) based on a number of factors and positive reviews from former and ongoing Exadel clients. The companies recognized in the Clutch Leaders Matrix focus between 10 and 100 percent of their business solutions on big data and analytics, and Exadel is rated highly with ‘proven’ delivery of projects. Exadel’s digital software engineering services are business-centric and drive successful digital transformations through advanced solutions.

“Our team of digital software engineers understand the importance and value of sophisticated big data and analytics in today’s tech landscape,” said Fima Katz, chief executive officer, at Exadel. “We understand that data is the backbone of digital transformation, and that real-time data analytics must deliver true business intelligence to the modern company.”

To arrive at the recognition, Clutch interviewed several former and current Exadel clients to determine whether the company consistently delivered on expectations like project scope, true business value, innovation, execution and completion.
